4 DAYS 3 NIGHTS

Deserted Islands, Dragons & Manta Rays

The Komodo National Park is a UNESCO World Heritage site that consists of 3 larger islands Komodo, Rinca, and Padar, and over 20 smaller ones, many of which are uninhabited. Komodo and Rinca are home to the legendary Komodo dragons, respected by locals who believe they descend from one born to a dragon princess centuries ago. The mystical hidden paradise of Komodo National Park and surrounding islands will enthrall travelers with its wild adventure. A remote land ruled by dragons where active volcanos rise from the ocean gives way to its unique treasures.

Initially founded in 1980 to protect its remarkable inhabitant, the Komodo dragon, the National Park has since been extended the protection to include additional terrestrial inhabits on the islands and the biodiverse marine life.
