

PADI Certification

Should any of the guests wish to complete a PADI certification while on board, we kindly recommend completing the theoretical e-learning component online in advance.

Our dive instructor and dive master will then take care of the practical training and final certification during the charter. While it is of course possible to complete both components on board, completing the theory beforehand allows guests to fully enjoy their time on Lamima and make the most of the diving experience.

When registering for the online e-learning, please use the following details:

- PADI Centre: LAMIMA / PT SEAC
- PADI Instructor: Ngali Murtadlo

The e-learning can be accessed either via the PADI app or through a web browser:

<https://store.padi.com/en-us/courses/?course=elearning>

Please note that students completing the online course are not required to purchase a PADI membership, as this remains entirely optional.

Guests completing the theory online pay for it directly through the app or browser, and then only pay the practical component once on board Lamima.
